Billy Mills

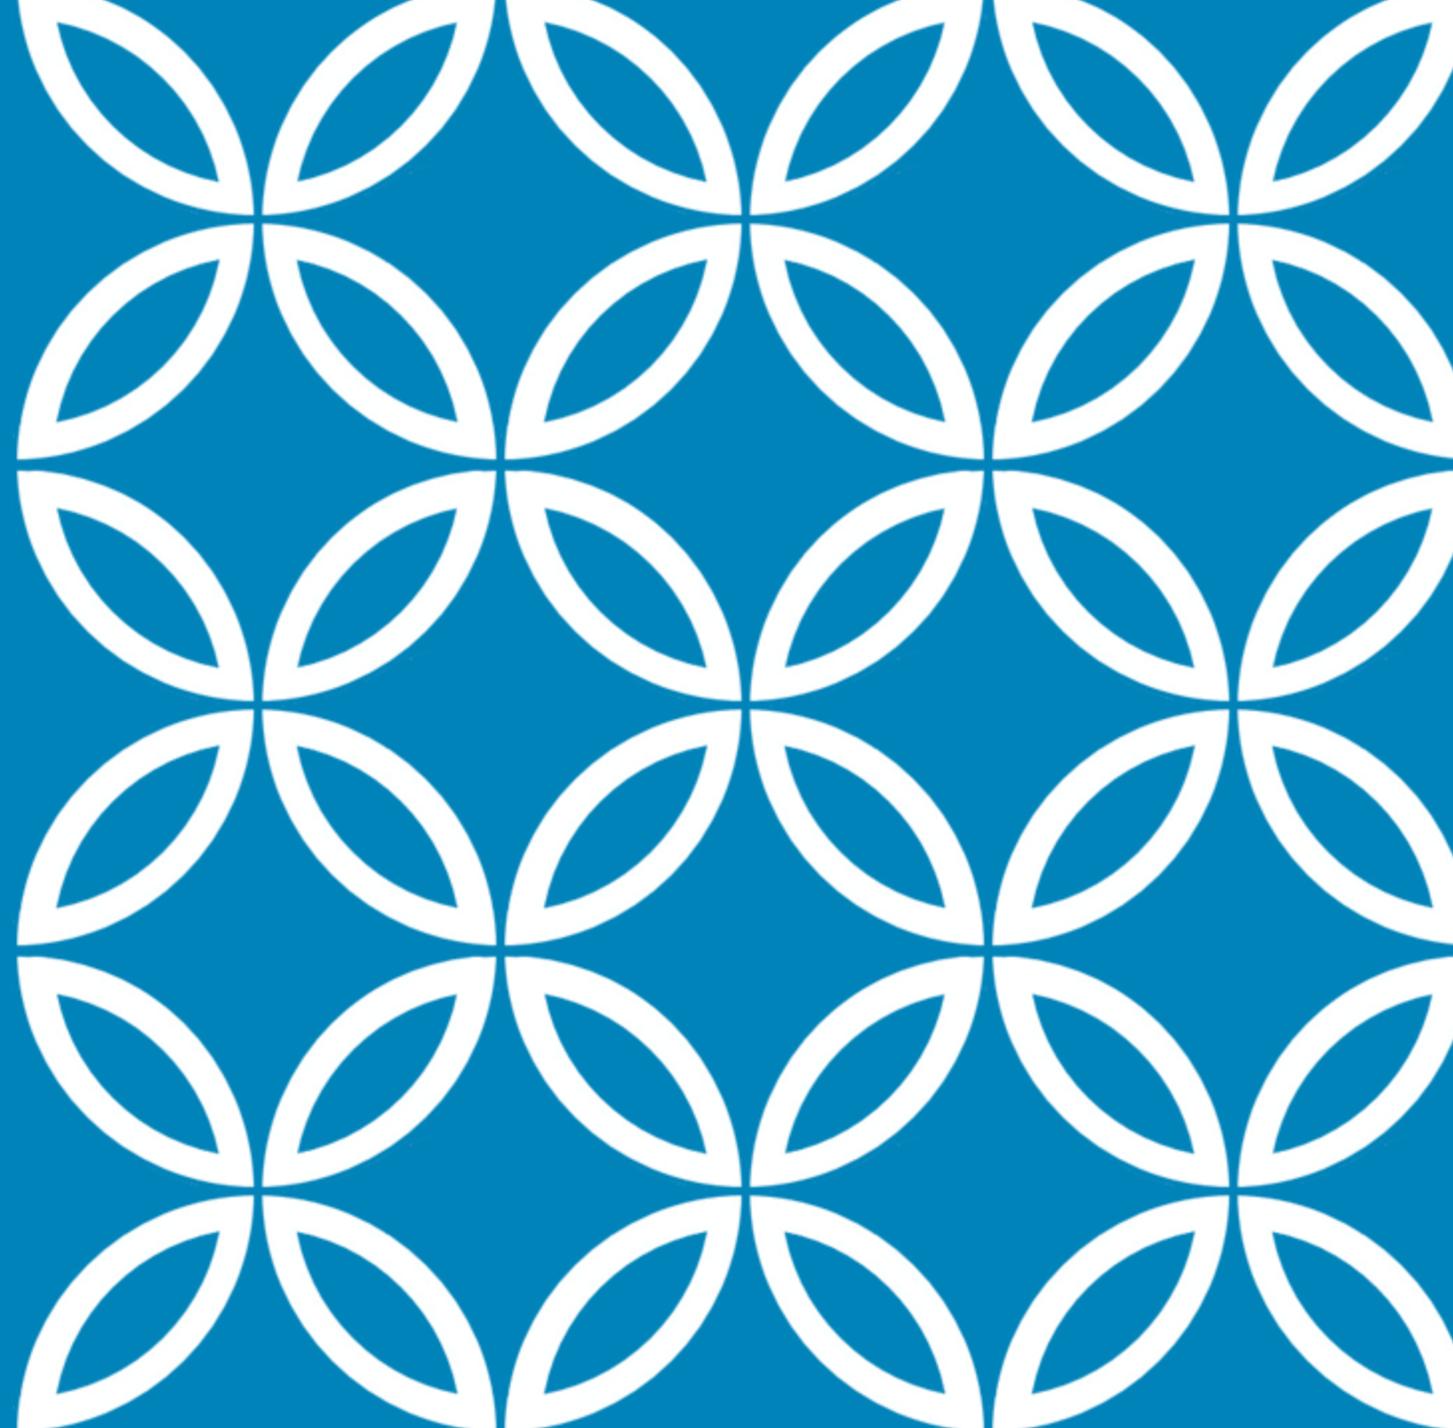

WHAT CAN MORE LOOK LIKE?

Billy Mills

So sadly, I couldn't actually finish the whole course.

THE JOURNEY

EARLY EDUCATION

Bullied then lashed out

Rejected by teacher and forced out of the class room

Home life was violent/abusive

Fight or Flight (survival mode)

Attended an AP (Releasing Potential) and that's where things changed drastically

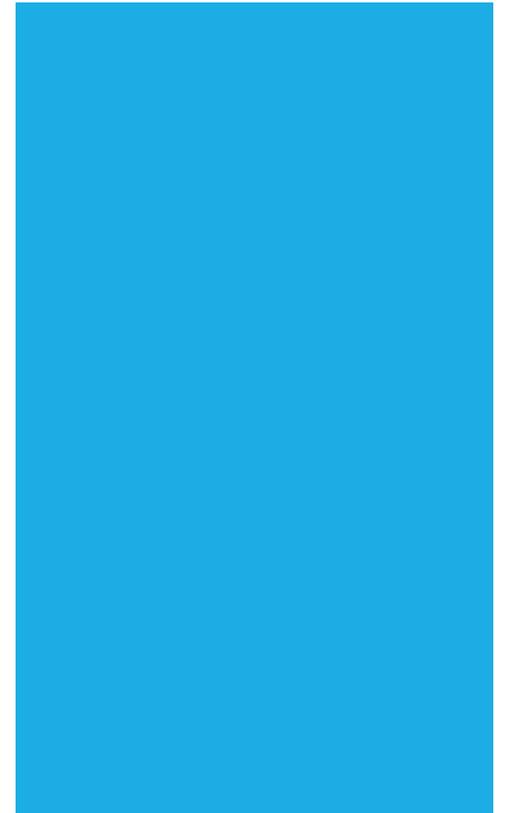

WORKING IN EDUCATION

Releasing potentials staff and methodology gave me ambition and self-worth

College for 3 years

Went on to work at Releasing Potential

Through that chance I grew exponentially in all areas of my life

TALENTINO

Met Jenny at a conference while I was in a state

Invited and supported me to speak publicly for the first time and has continued to do so

Recalling admiring a speaker at the first conference

Sponsored my football team, Waterlooville Wanderers!

Sponsored me attending a life changing course in Sweden (The Youth Initiative Program)

Invested so much time and energy into me!

WHAT DID/COULD HAVE HELPED?

Secure attachment – When I have found a secure attachment object I have excelled.

Containers – being the holders of a young person's space and environment

Persistence/consistency - To show up every day as if yesterdays didn't happen.

Focusing more on life skills such as emotional/social interactions

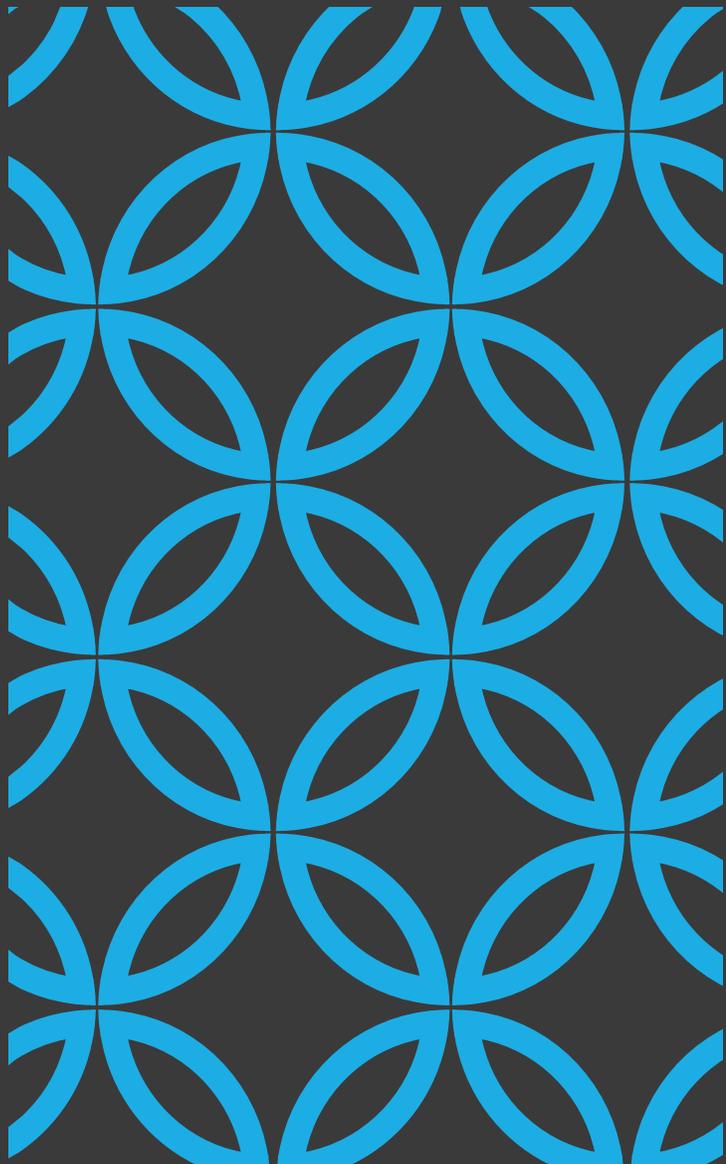

Setting for individuality to flourish

Given a chance at RP (it was a gamble for them)

ONTO THE FUTURE

Continue to educate myself in my own way.

- 1 year program in Denmark (Volunteer for Change)
- Self-exploration with biographical counselling
- Reading/research into subjects that connect to my childhood
- Art residency in Prague

FINAL POINT!

Me standing here can be viewed as a proof that any child, with any background can achieve great things and live a fulfilling and successful life. Given they have the support, guidance, persistence and most importantly Chance! Or in other words, More of it all!

More Chances!

Not Original 😞
